

Technologies for eLawyering – David Goldenberg to speak at Legal Marketing Technology Conference/West on October 11

VLP founding partner [David Goldenberg](#) will be participating at the 2012 LMA Technology Conference/West as a panelist for the session “Technologies for eLawyering”.

Session description:

Technologies for eLawyering

Virtual lawyering or lawyering in the Cloud: new technologies are making it easier to provide great legal services.

By eliminating wasteful real estate costs and investing in client-facing technologies, these lawyers and law firms are delivering excellent, efficient and innovative legal services to their clients. Technologies that have been locked down behind law firm firewalls are being moved into the cloud.

Learn about:

- The virtual practice mindset
- Communication tools
- Client collaboration tools
- Case management tools

The conference takes on October 11 in San Francisco. For more information about the conference, please see <http://lmatechconference.com/>.
