Cyber Resilience in Action: Incident Response Plans for Modern Organizations

Date: March 14, 2024

Time: 11 a.m. (PDT) / 2 p.m. (EDT)

Cybersecurity incidents are inevitable and can have devastating consequences for businesses of all sizes. Whether it's a ransomware attack, a data breach, or an insider threat, you need to be prepared to respond quickly and effectively to minimize the damage and protect your reputation.

That's why you need an incident response plan. An incident response plan is a roadmap that guides you through the steps of identifying, containing, eradicating, recovering, and analyzing a cyber threat or incident. It also helps you comply with legal and contractual obligations, mitigate risks, and secure your cyber insurance coverage.
